Experience

UX/UI Designer at Ericsson

Sep 2019–Apr 2024

Ericsson Private 5G Project

- Designed UX for a role-based platform used to install, configure, and manage private 5G networks
- Designed configuration workflows and management interfaces for telecom network equipment, including routers, network controllers, baseband, and radio access network components.
- Designed monitoring dashboards for network traffic, device status, and system events.
- Improved complex configuration workflows through iterative design with engineers and stakeholders
- Collaborated with frontend developers and backend developers, radio engineers, and documentation teams in an Agile environment

UX/UI Designer at Ericsson

May 2017–Sep 2019

Connected Urban Transport Project

- Contributed to the design of an Advanced Traffic Management platform for the City of Dallas, USA.
- Designed user flows, wireframes, and interactive prototypes for map-based traffic monitoring.
- Designed interfaces for monitoring and managing devices, visualizing real-time data from sensors, cameras, and connected city systems.
- Designed UI components and interaction patterns while Ericsson design system was still evolving.
- Collaborated with developers and cross-functional teams in an Agile environment to design and iterate on solutions.

Education

(2015–2017) MSc in Interaction Design and Technologies

Chalmers University of Technology, Sweden

(2009–2012) BA in Literature, Culture & Digital Media (LCDM)

Blekinge Institute of Technology (BTH), Sweden

(2006–2007) Interior Design Program

Campus of Fine Arts, University of Tehran, Iran

(2005–2009) BSc in Software Engineering

Shahryar Azad University, Iran
